

Kelly Wells Knows How To Please

Kelly Wells, also known by her alias, Kelly Fuckin Wells, started her career in the adult entertainment industry in the year 2004. The eventual star and her friend moved to Las Vegas in 2002 not long after graduating high school. As many adult entertainers are introduced to the porn industry, Kelly Wells first was a stripper. Because strippers are inclined to network on the job, another stripper informed Kelly of Skin City Models in the case that she wanted to explore the adult entertainment industry. Sure enough Kelly was interested in the porno industry and in the year 2004, she shot her first hardcore sex scene and has since been featured in over 250 adult films in addition to pictorials and layouts in both online and print mediums.

Gangbang scenes in the hardcore pornography genre are especially filthy and appealing to kinky promiscuous types. An example of one such scenario, for instance, might be a porno slut with a dick in her pussy, bouncing for joy as if on a pogo stick, or getting rammed like a dog in heat, while at the same time a man, or woman with a strap on device plunges her ass hard and fast. Of course any of these scenarios have many variations and professionals in the industry are in fact expert at what they do. In addition to the aforementioned double penetration action that so many whores beg for in screaming, panting, frantic professions of horniness, a porno slut can generally handle a row of cocks which she bobs along on with her dirty mouth, at the same time perhaps playing with their balls and even putting fingers in some mens asses, all with the goal in mind to make those stiff serpents spit in delight all over her titties, face and anywhere else the warm sticky liquid shoots and lands.

Certainly the above hardcore descriptions are a sharp contrast from the life of a stripper, and so it seems Kellys alias that uses Fuckin as a middle name is appropriate. While some adults who are enthusiastic about porn might not all like the same hardcore action, this hot genre might not be for everyone. There are more mild versions that are considered hardcore but not as graphic or nasty as gang bang scenes where a lucky slut catches dick slung in every direction with her pussy, ass or mouth. Whatever form of media a person views their porn it should be noted that explicit content is intended for those adults 18 years of age and up.
